

thing except your attempt to Baconize Shakespeare."

"Really is it not the work instead of the man that you are fond of?"

"No, I am of French parentage and must have a personification."

#### GENERAL DENBY.

I asked a gentleman to-day who has occasion to know, concerning the qualifications of General Denby, whom the Hoosiers have hopes will yet receive the Chinese Mission. "General Denby," was the reply, "is one of the best lawyers in Indiana."

"Do you know Judge Baldwin, A. W. Hendricks and David Turpie and other members of the profession in Indiana?"

"I do."

"What of his scholarship?"

"He is a graduate of the Georgetown University, then as now, one of the foremost educational institutions in the country. He has always been a close student, speaking French and German quite fluently. He was once familiar with Spanish, but having no occasion to speak the language it has left him. But a language once learned can never be wholly forgotten, and three months' study would make General Denby a good Spanish scholar. We never heard of him in a political way for the reason that the practice of jurisprudence filled the measure of his ambition. He is a hard-working inhabitant of the Pocket."

#### MR. HENDRICKS' COLLEGE SPEECH.

Yale refused to rescind the contract, and Mr. Hendricks will have to speak. He is working on it at the moment. The discourse will account for the development of jurisprudence in this country. Were I making the speech I would quote and endorse John Swinton, who says: "This is a government of the lawyers, for the lawyers and by the lawyers." Mr. Hendricks will leave that out. He does not like anything sensational. There are great many things in which I materially differ with the President, Vice President, United States Senators and members of Congress. Buckles, in his History of Civilization, says that the highest talent of this country entered the profession of jurisprudence. I quoted that to Mr. Hendricks and he answered that he was hardly prepared to believe with Buckles. He said that this was particularly a commercial age, and he could not say that the best talent was going into a profession at all. Another European observer said, should, should, would or might have said: "The lawyers are the aristocrats of America." Mr. Hendricks will evidently pay no attention to that. Douglass Jerrold said something like this: "What the enunciate as to Turkey the lawyers are to England." That is picturesque and expressive. If not, it is certainly correct. Charles Dickens records that in Boston he listened for an hour to a lawyer addressing a jury without being able to learn one idea of the case, and that was the only thing on this side of the Atlantic reminded him of home. But Mr. Hendricks in his address to the law students of Yale will not dwell on those phases of the subject. He will account for the growth of jurisprudence in America in the questions culminating in and growing out of the struggle with the parent country. The legal relations of the States have largely concluded to thought. The treaties of the Government with the Indians and slavery were long considered legal questions. Every intelligent voter in this country becomes to some extent a lawyer. American law books are recognized as authority wherever the language is spoken.

#### Seymour and Vicinity.

Special to the Sentinel.

SEYMOUR, Ind., May 20.—Hon. William K. Marshall to-day filed two suits in the Jackson Circuit Court against the Ohio and Mississippi Railway—one for \$25,000 damages for personal injuries to Charles D. Crabb, Crabb was a brakeman on a through freight, and was precipitated from his train to the ground, and almost the entire train passed over him, crushing and injuring him. One arm was so badly mangled as to require immediate amputation above the elbow. The other suit is for \$5,000 damages for personal injuries to Thomas Leslie, a yardmaster. Both plaintiffs reside in this city.

Misses Lottie Kinney and Ida Patrick, young women aged some eighteen years, who ran away night before last from their homes here, and arrested in Louisville by dispatch, were brought at a late hour last night by Marshal Bulger, who went after them yesterday. Ida took all the money her father had, and the elopement was made without anyone knowing of it. They claimed to have gone away to work and because they were tired of living in Seymour. No young woman need run away from here under such circumstances to find work.

Mayor Reuben F. Everhart's horse was stolen last night, by the stable door being forced open. It is thought the horse and thief will be captured, as suspicion rests upon but one man.

A large number of our people are at Indianapolis, in attendance at the Grand Lodge of Odd Fellows.

Dr. John T. Shields retapped Clark Moore for drops yesterday, taking from him some ten gallons of water, making about ten gallons taken from him in the last few weeks.

Mr. Willard Bevis and Miss Flora A. Brown were married last night at the residence of the bride's father, Mr. John M. Brown, Rev. Dr. George L. Curtis, of the M. E. Church, officiating. The groom is a gay fitter, and a young gentleman of the highest order, and the bride is an accomplished young lady who moves in the highest society circles, her father being one of Seymour's distinguished business men.

#### Explosion of a Gasometer.

St. Louis, May 20.—At 10 a. m. this morning, one of the large gasometers at the works of the St. Louis Gas Light Company, at the corner of Second and Convent streets, exploded with a terrible report, which could be heard for blocks around. After the smoke had cleared away, the employees of the works, who rushed to the scene, found three men lying about the meter. Investigation showed that John Burns and Tom Doran were dead and that Thomas Killian, who was injured about the head, was insensible and in a very serious condition. All the men had been employed in clearing out the meter which exploded, and which had been out of use for some weeks. The Superintendent accounts for the accident by saying that the gas had been run into the damaged tank yesterday to try it, and that the men must have used a light which communicated with some of this gas remaining in the tank. The damage to the works is slight. John Burns, one of the victims, had his head torn completely from his body. He is a married man forty-five years of age, and leaves a wife and three children. Tom Doran, a gas helper, twenty-three years of age and single, had his skull crushed completely in and died instantly. Thomas Killian, aged fifteen, who was severely injured, was unconscious for more than an hour after the accident, but he may recover.

Prickly Ash Bitters is not an intoxicating beverage, but a pleasant, mild laxative and efficient tonic, acting directly on the Liver, Kidneys, Stomach and Bowels.

#### HUDSON'S BAY.

The Alert To Go on an Expedition to the Shores of Hudson's Straits to Change the Scientific Observers.

HALIFAX, N. S., May 20.—Captain William Adams, a famous Dundee whaler and Arctic navigator, is in the city. The Arctic ship Alert will start for Hudson's Bay next week to bring home the men who spent last year at the stations along the shores of Hudson's Strait, established by the Dominion Government for the purpose of taking meteorological and other scientific observations, and replace them with men who will remain there another year. The whole American and Canadian northwest is vitally interested in the opening up of the long-talked-of route to Europe by way of Hudson Bay. Captain Adams has had a third of a century of experience in Arctic waters. He will go out on the Alert as the representative of the Winnipeg and Hudson Bay Railroad and Navigation Company to report upon the feasibility and practicability of the route. In an interview Captain Adams expressed that Hudson Bay and Straits are more feasible and practicable for navigation from the middle of June to the end of October to ships properly equipped with two and a half-inch iron plates for outside shell, with suitable ice stern inside fortifications, and with extra beam. The ship should be limited to 2,500 tons in size. They need not be wooden ships, as after making two trips to Hudson Bay in the season they should be employed in the Atlantic or any other trade. He thinks that there is as much danger in navigation on the coasts of Newfoundland and Nova Scotia, when the ice is breaking up in spring, as in navigation in Hudson Bay the four months indicated. The opening up of this route will bring the heart of the great Northwest as near to Liverpool as New York is to-day.

Lieutenant Gordon expects to reach Hudson's Straits by June 10. Provisions for the ensuing year and eighteen tons of hard coal will be left at each station. A large quantity of evaporated vegetables, prepared in this province, will be taken to the stations. Between thirty and forty applicants have been made for positions as observatory men. Much valuable information is expected to be obtained from the observations made during the past year as to the formation and breaking up of the ice, and in regard to its movements, also relative to the navigation of the straits. After leaving Fort Churchill, a ranging survey will be made on such portions of the eastern shore of the bay as are practicable. The Alert is expected to arrive back in the straits about August 20, and the remainder of the time will be occupied in surveying as much of the coast of the straits as is possible. Three representatives of the Hudson's Bay Railway will join the expedition for the purpose of reporting for the company. Dr. Bell, Fellow of the Geographical Society of Ottawa, will be attached to the staff as geologist and medical officer.

#### Items from Tipton.

Special to the Sentinel.

TIPTON, Ind., May 20.—A man living near Kempton, Ind., was arrested Monday night by Marshal Smithson and brought to this city, charged with stealing a gold watch valued at \$50 from Miss Jane Grubbs, of that place. His preliminary examination was had before his Honor, Esquire Thomas. He was bound over to court in the sum of \$300, and on failure to give bail was sent to jail to await the action of the Circuit Court.

The large land case from Kokomo, involving \$12,000, in which Martin Nichols was made plaintiff and Francis M. O. Hart and Benjamin R. Hart defendants, has just been decided in this term of the Circuit Court in favor of the defendants. This case has been in progress for the past five days, and has been a hotly contested one on both sides.

Surgical operations were performed on William Galbreth last evening. He was seriously injured by the midnight train last Sunday night, which resulted in the amputation of the broken leg. It is now thought that he may recover.

#### Lafayette Items.

Special to the Sentinel.

LAFAYETTE, Ind., May 20.—The proprietorship of the People's Rink, owned and managed by Mr. Caldwell, on Saturday last changed hands, the purchaser being T. R. Sheets. Mr. Caldwell has come to the conclusion to abandon the rink business entirely and award his attention solely to the Opera House and street car line. Mr. Caldwell's course in the rink business has been a brilliant one, and his retirement is looked upon with great regret. Mr. Sheets, the new manager, is not unfamiliar in the rink business, as he managed the Palace Rink under Mr. Caldwell's ownership throughout the season, and under his management the rink will surely prosper. Success to you, "Rat."

At the Republican caucus last night it was decided not to make any changes in the Fire Department and on the Police Force, and all the members except one were retained. The City Attorney, City Engineer and Street Commissioner were also retained.

#### Committee Double Murder Through Jealousy.

St. Louis, May 20.—A dispatch from Paris, Texas, says: "A horrible double murder was committed here on Monday night and an attempt made to commit a third. It appears that S. P. Holmes went to his home about 10 o'clock at night and found Mrs. Holmes, his wife, Mrs. Sighe, his wife's sister, and Prof. Youmans, a music teacher from Canada, sitting in the parlor. Holmes immediately assaulted his wife with a knife. Prof. Youmans interfered and Holmes turned on him and stabbed him to death. He then stabbed Mrs. Sighe five times and she has since died. He then renewed his assault upon his wife, but her screams brought assistance from the outside and Holmes fled. Mrs. Holmes will recover. Holmes was arrested last night in the adjoining county and returned to Paris. He confesses the crime and says he was compelled to commit the deed through jealousy."

#### Shelbyville Items.

Special to the Sentinel.

SHELBYVILLE, Ind., May 20.—William Richey has received word that he has been granted a pension and \$1,000 back pay.

Word was received here yesterday that Celia Dobbins and Rosa Snyder, both natives of this city, had been badly, and the former fatally, injured by the burning of a house of ill repute, of which they had become inmates, at a point in Canada. Both were young women, and the Dobbins was well connected here.

#### The Railroad Kidnaping Story Confirmed.

CHICAGO, May 20.—A local daily this morning publishes the following: "To the Editor—The article in your paper headed 'Was He Kidnaped,' is not exaggerated, but too true. I was one of the unfortunate victims on board of the Ella Knight, which left New

Orleans for Puerto Barrios, Guatemala, and I can corroborate the statement of Edward Santarosa. I am of the same age—sixteen—and can corroborate the terrible stories of suffering, hardship and brutality. Richard Hight, No. 32 North Clark street, Chicago."

#### Greenfield Notes.

GREENFIELD, Ind., May 20.—Winfield S. Fries presented a Sentinel reporter with a report of the proceedings of the fifth annual meeting of the County Surveyors and Engineers of Indiana, held at Indianapolis, January 20 and 21, 1885. The book contains eighty pages of valuable reading matter, giving a full report of the proceedings, the President's address and by-laws. The book is gotten up in excellent style, and was done in this city by the Democrat steam printing house.

Harvey J. Renforth was arrested at South Bend, Ind., and brought to this city to-day and lodged in jail, to answer a charge of battery against him. The plaintiff in the case is Miss Dona B. Fair.

#### Columbus Notes.

Special to the Sentinel.

COLUMBUS, Ind., May 20.—The Bartholomew County Trotting Association have concluded to declare the June races off as but few of the races filled. This is to be regretted as the gentlemen composing the association have been to considerable trouble and expense. The meeting at Crawfordville being on the same date as that at Columbus it was thought advisable to postpone it.

George Tyre and Peter Purdum, two young men of Johnson County, charged with robbing a man they were boarding with in Edinburg of \$60, were arrested here yesterday evening and taken back for trial. The prosecution against them is very strong.

#### A Boy Mutilated.

LONG ISLAND CITY, L. I., May 20.—Mr. Madison Lewis, colored, yesterday left his six-month-old baby in charge of her to an aged six years, and her daughter, aged four years, while she visited a neighbor. When she returned home she found that the baby's face had been terribly cut by her daughter, with a carving knife. The doctor was called in and says the baby may live, but that it will be terribly disfigured. Mrs. Lewis has often acted strangely, and it is supposed that her daughter inherits insanity. The girl has often remarked that the baby should be cut up.

#### The Foster-Beatty Muddle.

CINCINNATI, May 20.—The Cincinnati Commercial Gazette to-day quotes the following from an interview with General Beatty concerning Governor Foster's statement that Sherman was a candidate for re-election to the Senate: "This is an amusing fiction gotten up in the interest of harmony, but that he (Sherman) intends to accept and serve is untrue. He has never said he would, and never will." The Commercial Gazette adds: Senator Sherman says, in a letter before us, dated March 2: "I have concluded to allow my name to be canvassed with the rest, and to accept if elected."

#### A Marine Disaster.

HALIFAX, May 20.—The bark Wyoming, which arrived at Sheet Harbor from London yesterday, reports that in latitude fifty-five degrees, longitude twenty-five degrees, she picked up a life buoy on which was painted "Alexandria, of Glasgow." Five days after she passed a vessel, bottom up, newly-coppered, of about 800 tons. The next day she sailed through a large number of barrels floating three parts under water.

#### Tennessee's Wheat Crop.

NASHVILLE, Tenn., May 20.—Reports by specialists from this point about the destruction of growing crops by cut-worms are much exaggerated. The ravages are, in fact, not so great as frequently occur when no mention is made of them. Worms have appeared in some sad lands, but the injury is by no means general. The stand of corn is better than usual.

#### Minister Magee's Farewell Benefit.

LOGANSPORT, Ind., May 20.—Senator Rufus Magee, Minister-elect to Norway and Sweden, was tendered a farewell banquet by the citizens of Logansport last night. Covers were laid for seventy-five persons, and a number of toasts and responses. Mr. Magee leaves for his new field of service May 23.

#### St. John Voted Down.

SPRINGFIELD, Ill., May 20.—In the House this morning, a resolution giving the right of the Legislative Chamber next Thursday night to ex-Governor St. John, to deliver a temperance lecture, was voted down, the Republicans voting almost solidly against it.

#### Land Grant for Canadian Volunteers.

OTTAWA, Ont., May 20.—Hon. Mr. Blake will inquire on Thursday whether the Government intends to submit to Parliament a proposal for a mark of recognition in the shape of a land grant to the volunteers in active service in the northwest.

#### A Banquet Tendered S. S. Cox.

NEW YORK, May 20.—S. S. Cox, in a letter addressed to Orlando B. Potter, says he will leave for Constantinople in the middle of June. A banquet, to take place in this city, has been tendered Mr. Cox by nearly a hundred well-known citizens.

#### A Verdict for \$7,000.

Special to the Sentinel.

LOGANSPORT, Ind., May 20.—Mrs. Alice Conroy was awarded a verdict of \$7,000 damages against the Pan-Handle Company, because of the death of her husband.

#### Manure in Gardens.

[Country Gentleman.]

The best manure for early vegetables is well decomposed barnyard manure. It is not advisable to use fresh manure, as in such a condition it is unfit for plant food, and if it is put into the soil dry and fresh, it is a long time before it gets into condition so that the roots of plants derive nourishment from it; better place in a heap and allow it to ferment and rot before putting into the ground. All vegetables require well-manured soil, some, of course, much more than others. Cabbage, celery, sweet corn and cauliflower especially require rich soil. For peas, beans and tomatoes, if the soil is in tolerably good condition, a top dressing of wood ashes applied after plowing and well harrowed in, is excellent in most kinds of soils. I have often raised better crops of these vegetables when the application of wood ashes was given than when barnyard manure was used; there was less vine and more fruit. Working the ground at the proper time is another essential to be attended to. Clayey land has to be carefully worked, especially when plowed in the spring. If not when plowed it remains in a lumpy condition all summer, and as a consequence poor crops can only be expected. Thorough cultivation before the seeds are

put into the ground greatly accelerates the work during the season.

Butter should always be churned several degrees colder in summer than in winter. The reason is that the caseous matter of milk more readily attaches itself to the butter globules in summer than in winter, and that this adhesion can best be prevented by a cooler temperature of the cream when churning is a fact.

Acute rheumatism is an inflammation of the joints, marked by pain, heat, redness and a tendency to suddenly shift from one joint to another. With these symptoms apply Salivation Oil, the great pain cure, to the affected parts without delay. Price twenty-five cents a bottle.

**PRICKLY ASH BITTERS**

CURES ALL DISEASES OF THE LIVER, KIDNEYS, STOMACH AND BOWELS.

FOR SALE BY ALL DRUGGISTS. PRICE 1 DOLLAR.

CURES Dyspepsia, General Debility, Jaundice, Habitual Constipation, Liver Complaint, Sick Headache, Disordered Kidneys, Etc., Etc.

It contains only the Purest Drugs, and which may be enumerated PRICKLY ASH BARK AND BERRIES, MANDELIA, SODA, SENA, ETC. It cleanses the system thoroughly, and as a PURIFIER OF THE BLOOD is Unparalleled.

It is not an intoxicating beverage, and can be used as such, by reason of its Alkaline Properties.

**PRICKLY ASH BITTERS CO.**  
Sole Proprietors,  
ST. LOUIS AND KANSAS CITY.

#### Quick Relief!

When a man has suffered from Rheumatism only a little while, and is relieved from his pain, he is happy and delighted. But suppose he has suffered for more than a third of a century.

Alvin Grim, of Vale, Iowa, writes: "ATHLORPHOS has helped me much. The pain in my limbs is all gone, but sometimes I am left yet, and will then rub it on. I for I have been troubled for thirty-five years with Rheumatism."

Mrs. A. B. Baker, of Chicago,

Had rheumatic pains in her back for fifteen years, and Mr. Baker had been the victim of Rheumatism until his head was drawn down over his left shoulder. Mr. Baker writes:

"Half a bottle of ATHLORPHOS made me as good as new. My wife has taken the other half, and has not complained of her back since. She says her back never was so free from pain and ache as it has been since she has taken the ATHLORPHOS."

There are many people who think that because they have suffered so long, and have tried so many medicines in vain, they must "suffer on their three score years." But you see what ATHLORPHOS has done.

However Old your Case; However Severe your Pains; However Great your Disappointments, Try ATHLORPHOS.

If you cannot get ATHLORPHOS of your druggist, we will send it express paid, on receipt of regular price—one dollar per bottle. We prefer that you try it from your druggist, but if he won't, it does not mean that we are not doing our best to get it from us as directed.
